

T4SEASON - Parasol / Patio Umbrella

T4SEASON - DESIGNER PARASOLS

The T4season parasol range gives you the fundament to construct your own unique shade structure.

With an extensive range of over 80 models of varying size, shape and strength, you can choose the characteristics to suit your requirements.

Architects, designers, and private home owners can choose from over 200 RAL frame colours, and 78 standard acrylic canopy options.

For public areas and commercial customers there are selected reinforced and 4season models that have been wind tunnel tested, and developed to withstand vandalism.

Commercial customers in Europe include McDonalds family restaurant, Carlsberg beer, Copenhagen Municipality and Bollinger Champagne.

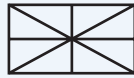

Extra options are IR heating, low energy lighting, valances, logos and printing.

The heaters can also be produced in the same RAL colour as the parasol.
